THE'URGY.† *n. s.* [θεουργία, Gr. *theurgie*, Fr.] The power of doing supernatural things by lawful means, as by prayer to God. This is Dr. Johnson's definition from Bailey. But the meaning also is a species of magick, in old times, which was employed in the worship of angels for their assistance to effect wonderful things.

Porphyry and some others did distinguish these two sorts, so as to condemn indeed the grosser, which they called magick or goety; but allowed the other, which they termed *theurgy*, as laudable and honourable, and as an art by which they received angels, and had communication with the gods. Yet St. Austin assures us, they are both damnable. *Hallywell, Melampr.* (1682,) p. 51.

THIEF.† *n. s.* [*thiubs*, Gothick; ðiep, ðeoꝼ, Sax. *dief*, Dutch. It was anciently written *thieof*, and so appeareth to have been of two syllables; *thie* was wont to be taken for *thrift*, so that *thie of* is he that takes *of* or from a man his *thie*, that is, his *thrift* or *means* whereby he *thrives*. Dr. Johnson. — Wachter and Serenius derive it from the Goth. *thiwe*, or *thive*, a servant; and illustrate this derivation by the analogy of the Latin *fur*, which meant a servant before it meant a thief. The Germ. *dieb* is both a male or female servant, and a thief. The reason, Wachter says, of transferring the sense, was because, in ancient times, servants were generally thieves; "quod plerique servi antiquitùs essent fures domestici." Lacombe thus also explains the old French word *thieu*, or *thiev*; "tives, domestiques, servantes: ce mot en Anglois signifie *voleur*."]

What am I? or from whence? for that I am
I know, because I *think*; but whence I came,

Or how this frame of mine began to be,
What other being can disclose to me? *Dryden.*

It is an opinion that the soul always *thinks*, and that it has the actual perception of ideas in itself constantly, and that actual *thinking* is as inseparable from the soul, as actual extension is from the body. *Locke.*

Burgess, Ess. on the Study of Antiq. 2d ed. p. 71. Mr. H. Tooke considers both *toll* as an excise, and the *toll* of a bell, as the participle of tilian, Sax. to lift up; applying it to the former as "a part *lifted off*, or taken away!" TRUTH.† *n. s.* [ꞇꞃeopðe, Sax. veracitas, fides data, foedus; *triggwo,* M. Goth. pactum, foedus; *trugth,* Cimbr. fides; *trigd,* Icel. fidelitas. Hence we find in our old language *trougthe* for *truth,* as in Huloet's Dict. Junius, Wachter, and Serenius, have referred these substantives to the verbs *trawan,* M. Goth. *tro,* Su. Goth. *trua,* Icel. ꞇꞃeopian, Sax. to trust; to believe. After them, at a long interval, Mr. Horne Tooke appears, deducing *truth* from *trawan* or ꞇꞃeopian; saying that "it is the third person singular of the indicative *trow,* and was formerly written *troweth, trowth, trouth,* and *troth;* and means (aliquid, any thing, something,) that which one *troweth,* i. e. thinketh, or firmly believeth." Div. of Purl. ii. 408. — *Truth,* so defined by Mr. Tooke, seems to accord with what a "corrupt politician" of old is made to say of it in a celebrated Discourse by Warburton: "You tell me, says he, [meaning Pilate,] of *truth;* a word in the mouth of every sectary, *who all agree to give that name to their own opinions!*" Mr. Tooke's opinions are therefore tendered in some paradoxical assertions respecting *truth;* which lead, however, only to wretched conclusions, and cause us to execrate etymology employed in aid of the most reprehensible purposes. Nor can we much admire the complacent irony, with which a puny follower of Mr. Tooke has informed us, that Dr. Johnson has defined "*truth* as the contrary to falsehood, with seven or eight other explanations equally good!" The critick should have better explained either moral or physical truth by qualities and circumstances, before he heedlessly pronounced what he had so idly "trowed or thought."]

To VAIL.† *v. n.* To yield; to give place; to shew respect by yielding. In this sense, the modern writers have ignorantly written *veil*, Dr. Johnson says; citing only the example from South. *Vale* or *vail*, the ancient spelling, should therefore be exemplified.

If from *vale,* which I think is right, it must be *vale.* Dr. Johnson. — Dr. Johnson is here unquestionably mistaken. The true spelling is *vail,* and the word is a mere abridgement of *avail,* which was the ancient English term, signifying not merely money given to servants, but any casual emoluments belonging to any office or station. See Ames's Hist. of Printing, edit. Herbert, under T. Rider, who was beadle of the company of Stationers, and in 1587 resigned his office, when J. Div. of Purl. ii. 149. — But *varlet* or *valet* is, in its original meaning, a word implying neither servitude nor disgrace. The old French word signifies a *youth*, as well as a *groom*, or *yeoman*; and accordingly Cotgrave says, "in old time it was a more honourable title; for all *young gentlemen*, until they came to be eighteen years of age, were termed so; besides those that waited in the king's chamber, and who were for the most part *gentlemen*, [who] had no other title than of '*valets* de chambre,' until that Francis the first, perceiving such as attended him to be no better than 'roturiers,' [plebeians, or low persons,] brought in above them another sort, and caused them to be stiled '*gentilhommes* de la chambre;' presently after which the title of *valet* grew into disesteem, and is at the length become opposite unto that of *gentilhomme*." Menage, among various opinions as to the etymology, notices "*valad*, Hebr. qui signifie *enfant*;" but inclines to Du Cange's derivation of the word from *vassalletus*, low Lat. dimin. of *vassallus*. VEIN. *n. s.* [*veine*, Fr. *vena*, Latin.]

1. The veins are only a continuation of the extreme capillary arteries reflected back again towards the heart, and uniting their channels as they approach it, till at last they all form three large veins; the *cava descendens*, which brings the blood back from all the parts above the heart; the *cava ascendens*, which brings the blood from all the parts below the heart; and the *porta*, which carries the blood to the liver. The coats of the veins are the same with those of the arteries, only the muscular coat is as thin in all the veins, as it is in the capillary arteries; the pressure of the blood against the sides of the veins being less than that against the sides of the arteries. In the veins there is no pulse, because the blood is thrown into them with a continued stream, and because it moves from a narrow channel to a wider. The capillary veins unite with one another, as the capillary arteries. In all the veins perpendicular to the horizon, excepting those of the uterus and of the porta, are small membranes or valves; like so many half thimbles stuck to the side of the veins, with their mouths towards the heart. In the motion of the blood towards the heart, they are pressed close to the side of the veins; but if blood should fall back, it must fill the valves; and they being distended, stop up the channel, so that no blood can repass them. *Quincy.*

He might have found the same expression in Beaumont and Fletcher. Dr. Johnson has considered the word only as an adjective.

Jonson, Discoveries.*

UMBRA'TILE.† *adj.* [*umbratilis*, Latin.] Unsubstantial; unreal. Mr. Mason observes, that Dr. Johnson's definition and accent of this word are wrong: the former is, "being in the shade," which Mr. Mason changes into "passing like a shadow," with an example from Evelyn; the latter is on the second syllable, which, however harsh, appears to have been so pronounced in our old poetry; and therefore Mr. Mason might have been less dogmatical as to the accent on the first.

Shadows have their figure, motion,

U'MPIRE.† *n. s.* [This word Minsheu, with great applause from Skinner, derives from *un pere*, Fr. a *father*. Dr. Johnson.—There can be no doubt that Minsheu, and those who follow him, are here mistaken. The etymon is the Latin *impar*, as I have observed under our old word *impier*. To this Latin word *umpire* has indeed been long referred. "An *umpire*—one who is chosen by two, four, or any *even* number of arbitrators (on their being equally divided on their award) to give his casting vote: it is a variation of *impar* for odd." Cleland, Voc. 156. My learned friend, archdeacon Churton, has observed to me, that in the Oxf. Reg. Cur. Cancell. from 1434 to 1469, the expression "*impar* electus est inter, &c." occurs, fol. 172.; where *impar* undoubtedly means *umpire*.] An arbitrator; one who, as a common friend, decides

disputes. It is by Browne taken simply for a judge in a sense not usual.

UN.† A Saxon privative or negative particle answering to *in* of the Latins, and *α* of the Greeks, *on*, Dutch. It is placed almost at will before adjectives and adverbs. All the instances of this kind of composition cannot therefore be inserted; but I have collected a number sufficient, perhaps more than sufficient, to explain it.

The examples, however, though numerous, might have easily been made more; for almost every adjective has a substantive and an adverb adhering to it, as *unfaithful, unfaithfulness, unfaithfully.* *Un* is prefixed to adjectives with their derivatives, as *unapt, unaptness, unaptly;* and to passive participles, as *hurt, unhurt; favoured, unfavoured:* it is prefixed likewise to participial adjectives, as *pleasing, unpleasing*, but rarely in the verbal sense expressing action; we cannot say the dart flew *unwounding*, though we say the man escaped *unwounded. In* and *un* may be thus distinguished. To words merely English we prefix *un*, as *unfit;* to words borrowed in the positive sense, but made negative by ourselves, we prefix *un*, as *generous, ungenerous.* When we borrow both words we retain the Latin or French *in*, as *elegant, inelegant; politick, impolitick.* Before substantives, if they have the English termination *ness*, as *unfitness, ungraciousness*, it is proper to prefix *un;* if they have the Latin or French terminations in *tude, ice*, or *ence*, and for the most part if they end in *ty*, the negative *in* is put before them, as *unapt, unaptness, inaptitude; unjust, injustice; imprudence; unfaithful, unfaithfulness, infidelity.* Dr. Johnson. — It is true, as Mr. Mason has observed, that one uniform effect is not always created by *un* prefixed; it does not always imply negation. Some of Mr. Mason's additional examples deserve notice; and some are also now supplied, which Dr. Johnson and himself might, perhaps without impropriety, have selected. There is scarcely a reader, I dare say, who could not offer many more.
